New Software Installation Request

For any problem, as well as if you want to install specific software, greater computing capacity, greater storage space, longer duration of work in the computing nodes, use of machines not accessible to the user, etc. You can contact the administrators of TeideHPC by email support@hpc.iter.es indicating, if necessary, the following application information:

- *Application name*

- *Version*

- *Download link or repository where it is*

- *Another information*
